WABER POWERLINE

MASTER POWER CONTROL OUTLET BOXES

WABER ELECTRONICS INC.

IDEAL FOR PLANTS, LABS, SCHOOLS, INSTITUTIONS

WABER "INSTANT WIRING" MULTIPLIES YOUR AVAILABLE OUTLETS . . . QUICKLY . . . ECONOMICALLY . . . *Safely!*

Waber's "Instant Outlets" give you quick, safe, low-cost power placement wherever electrical power is used. These plug-in units are heavy-duty, industrial grade outlet boxes, completely safe (most models contain either fuse or circuit breaker), completely versatile (your choice of many special features, including new "series stringing" for multiple installations). Cut your wiring costs - now. Order the Waber Power Outlet Boxes to fit your need. All standard units are rated at 15 amperes, 130 volts. Most also available in 20 ampere models. Custom units can be supplied to meet your specific requirements. Write or call us today if you have a need for an outlet box with variations from our standard line shown in this catalog.

WABER MODELS 15 & 17 SERIES MASTER POWER CONTROLS

FEATURES

* Panel mounted fuse or circuit breakers
* Tough neoprene cord-set
* Bright neon pilot light
* On-off switch
* UL approved components
* 12 3/4" mounting centers
  Size: 13 1/8 x 2 3/8 x 1 5/8"
* Rated 15 amperes, 130 volts continuous duty
* Steel case finished in silver gray textured hammertone

Master Control for "Series-stringing" Waber electrical outlet boxes. Seven "U" ground outlets including one jumper outlet on the end. (See illustration below).

Model 15 (fuse, 6' cord-set)	8.75 Net
Model 15-15 (fuse, 15' cord-set)	9.75 Net
Model 15CB (crct. brkr., 6' cord-set) . . .	9.75 Net
Model 15CB-15 (crct. brkr., 15' cord-set) .	10.75 Net

Nine heavy duty "U" ground outlets, including one on end for "series-stringing" use. This unit does not have off-on switch, pilot light, fuse, or circuit breaker. Designed primarily as a slave unit for Model 15, it can be used independently where outlets only are required, and built in fuse or circuit breaker protection is not needed.

Model 17 (6' cord-set)	6.75 Net
Model 17-15 (15' cord-set)	7.75 Net

NEW WABER "STRING BEAN" SERIES
SPACE-SAVER SIZE IN A STURDY STEEL CASE
COMPLETELY WIRED FOR INSTANT USE

1000 1001 1010

THESE FOUR FOOT BEAUTIES!
ONLY ONE AND ONE EIGHTH INCH DEEP,
ONLY ONE AND ONE HALF INCH WIDE!

These new Waber "String-Bean" models occupy a minimum of space, yet are sturdily made to meet the heavy duty needs of the laboratory or industrial plant. Waber "String-Bean" units are of heavy duty steel construction to provide many years of useful service in rack cabinets, on work benches, and in production and testing. They are fully wired, ready to plug-in for instant use.

Choose the unit you need from the many shown here. If a special modification would suit your needs better, let us design a unit for your specific application.

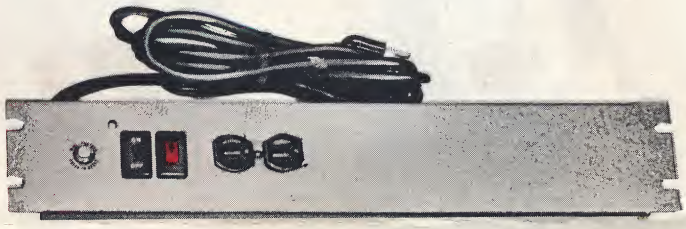
Waber Model 900 has six "U" ground outlets controlled by an on-off switch, with a pilot light, and fuse or circuit breaker. The 6 or 15 foot cord-set is of tough, durable neoprene.



Waber Models 904, 905, and 906 Rack Power Mounts have two outlets on the front and four outlets mounted on the rear of the panel. This provides an excellent source of power for equipment mounted in the rack. Control is from the front with the convenience of a pilot light, on-off switch, and fuse or circuit breaker for protection.

Model 904 is fitted with "U" ground type outlets, Model 905 with twist locking type, and Model 906 crow's foot.
